KOREA

Dear Dr Jae-Sook Ryu

50th Anniversary of the Korean Society for Parasitology

The Australian Society for Parasitology (ASP) is pleased to hear that the Korean Society for Parasitology is celebrating its 50th anniversary this year. The ASP is aware of the many exciting advances in Korean parasitology, and in particular how a number of endemic human parasitic diseases have been eradicated from Korea in recent history.

On behalf of the ASP, I would like to extend our sincere congratulations on achieving this impressive landmark. We hope that our two societies will strengthen relationships and develop close collaborative ties over the coming years.

Yours sincerely

Dr Peter Holdsworth
President 2008/2009
Australian Society for Parasitology
